

CLAQ satellite course

PRINCIPLES OF ELECTROCHEMISTRY

January 13 to 15 , 2016

Dr. Petr Vanysek

Northern Illinois University.
DeKalb, Illinois, USA

Location: Facultad de Ciencias Químicas,
Universidad de Concepción. Concepción.

Dr. Petr Vanysek is Full Professor at the Department of Chemistry and Biochemistry , Northern Illinois University, at DeKalb, Illinois, USA. Dr. Vanysek has more than 90 publications in peer reviewed journals, three books on electrochemical topics and 17 book chapters. His Research Interests are on electro analytical chemistry; physical electrochemistry; electrochemistry of electrolyte interfaces; interfacial structure and transport; optical processes on electrified interfaces; sensors; separations and microfluidics.

These course is designed for graduate and undergraduate students. It is free of cost but registration is needed. It will consist on three hours/day of thoretical lectures given by Dr Vanysek.

Language: English.

Organizers: Dr Luis Basález (Departamento de Analítica e Inorgánica) and Dr. Julio Sánchez (Departamento de Polímeros). Facultad de Ciencias Químicas, Universidad de Concepción.

Information and registration please contact Dr. Luis Basález at lbasaez@udec.cl
